- Implemented REST based web service.
- Developed ReactJS based web applications using Java, Java-script and MongoDB.
- Continuous Integration/Deployment, code reviews and unit/integration/testing.
- Collaborate with QA team to define test cases, metrics and resolve questions about test results.

Projects:

DHL COURIER SERVICES PROJECT SUMMARY

Project Description: This project involved developing a system to support DHL's courier services.

Role: As a spring framework developer, I played a crucial role in building the backend infrastructure that powers the courier service operations.

Additionally, I leveraged my ReactJS skills to develop the user interface components for the system, enhancing user experience and interaction.

Technical Skills Utilized:

- Spring Framework development.
- ReactJS for user interface development
- Backend development principles.
- Integration with relevant systems.

Certifications:

- Infosys Certified Springboot Developer
- Infosys Certified React Developer
- AZ-900 Microsoft azure fundamentals

Education:

Sandip University, Nashik

2017-2021

Bachelor of Technology in Aerospace Engineering (CGPA of 7.34/10.00)

Nashik, Maharashtra, India
